

Webex Calling Innovations

Cisco Live 2023 - Las Vegas

Cloud calling, the way you want it

Thanks for joining the Webex Calling team at Cisco Live US 2023. Learn more about our announcements and demos below, or [contact sales](#) for more information.

Learn more about Webex Calling:

Webex Go with AT&T

Deliver a complete business phone system through your AT&T mobile phone. With Webex Go with AT&T your AT&T phone number is your Webex identity for secure, compliant, and private business communications.

External Links:

Webex Go

Add your Webex Calling line as the second line on a personal mobile phone for compliant, secure, and private BYOD. Empower hybrid workers with a powerful calling system in the palm of their hands.

External Links:

Enhanced Survivability

Enhanced Survivability for Dedicated Instance provides complete redundancy of calling features, even when the cloud is not available. This innovation is essential for mission critical organizations that require 100% availability.

External Links:

Group Call Management

Eliminate the cost and complexity from your call center with Group Call Management, a complete call center included out of the box with Webex Calling for no additional fee.

External Links:

Webex Calling for Teams

Harness the complete enterprise-grade Webex Calling experience from within Microsoft Teams. Streamline productivity with a seamlessly integrated Calling experience in Teams.

External Links:

Webex Calling for Chrome

Deliver Webex Calling to your users through a easy to use Google Chrome extension that looks and feels just like a desktop application. Webex Calling for Chrome supports any desktop Chrome browser, including ChromeOS.

External Links:

Hot desking

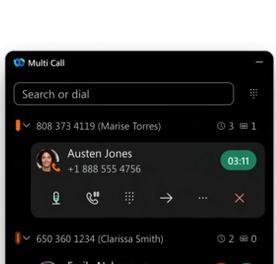

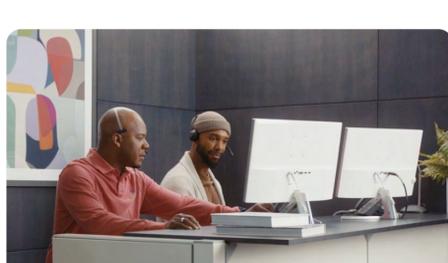

Easily personalize shared devices like Cisco 8800 series IP phones and Desk Devices by scanning a QR code. Re-imagine office space for the future beyond hybrid work with shared spaces that are more efficient and sustainable.

External Links:

Webex Attendant Console

Empower attendants and receptionists with the new Webex Attendant Console, a single, all-in-one interface to effortlessly connect callers. Coming in mid 2023.

Multi call window

Easily manage calls across multiple lines with the multi call window. Improve the productivity of your power calling users with mid call controls accessible on each line, presence, and busy lamp field indicators.
